ZEMCO.EU

ZEMCO CM7

Dashboard control: can be placed anywhere. The keys are illuminated but can also be found by touch. Applicable when a steering column control is not possible.

Functions

- Fix the speed
- Accelerate or decelerate
- Resume the last speed driven.

ZEMCO CM30

Steering column control: blends seamlessly with the high-quality materials of the dashboard thanks to its stylish and slim design. Can be operated without taking your hands off the steering wheel.

Functions

- Same as CM7 +
- Cancel function.

ZEMCO Cruise Control sets

These professional controls fit perfectly into the interior of modern passenger cars, motor homes and light commercial vehicles.

For optimum ease of use, speed adaptation on routes with different speed limits, we offer controls with two or even three freely adjustable speed pre-selection buttons.

ZEMCO CM35

Steering column control: externally similar to the CM30.

Functions

Same as CM30 +

- 2 memory buttons to store 2 speeds that are often driven

ZEMCO Cruise Control

Cruise control in combination with the original controls for the Peugeot 108 1.0, Citroën C1 1.0 2014> and the Toyota Aygo 2014>

Also includes the original limiter function.

Functions

- Fix the speed
- Accelerate or decelerate
- Resume the last speed driven.

Cruise control, also for motorhomes

- Cruise control is also a highly appreciated accessory for motorhomes. It gives great comfort when driving medium and long distances.
- Bought a new car or motorhome or occasion but cruise control is missing? Whether it is 25 years old or brand new, we supply cruise control for almost every model and type. Have it safely retrofitted by us.
- Installation is done professionally, the wiring is installed invisibly.
- A retrofitted cruise control is an added value, also in use!
